

# BUNN®

**Model  
1691**

**Model  
2491**

## STANDARD MODELS

### 1091, 1691, 1991, 2091, 2491, and 3091 TYING MACHINES

- ✓ New style guarding, easier access for service work.
- ✓ Electrical disconnect prohibits use of the machine without guarding.
- ✓ New high strength, quality frames.
- ✓ Choice of wraps, front tables and twines or polytapes.
- ✓ The Bunn knotter lock gives traditional long service capability.
- ✓ Patented dual tension stringholder.
- ✓ Double headed drawslide, roller twine arms for interchangeability of twines and polytapes.
- ✓ Superior tension control for tightest possible tie.

*The all new BUNN TYER has improved strength, quality and longevity, and utilizes the latest manufacturing technology while using the same concept as the original Bunn Tying Machines.*
