DETAILS

The W360 Multifunction Tabber offers advanced technology, heavy duty construction and high productivity all from a tabletop unit. Simultaneously applies tabs to multiple sides of the same mail piece in one pass. The W360 complies with the USPS® regulations for tabbing open-ended mail to qualify for automation discounts.

1. Versatile Tab Application

Applies 1, 2 or 3 tabs up to 1-1/2" diameter in a single pass on self-mailers to qualify for automation postal discounts. Applies tabs to the leading and trailing edge for booklet mail pieces.

2. Large Backlit LCD Control Panel

Easy set up and operation with the self prompting electronic control panel. Allows precise adjustments for material handling and control to optimize output. Stores up to 4 predefined jobs.

3. Applies a variety of Adhesive Materials

Each reel holds up to 11,000 tabs (15/16" tabs). Use the tabber to apply, small labels, tabs and stamps from 3/4" to 1-1/2" in diameter. Applies clear, translucent, and paper tabs.

4. Superior Media Handling

Precision registration with built in guides to deliver superior material handling in a variety of size and thickness. Simple adjustments allow for precise tab placement. Streamlined tab threading allows for easy job changeovers.

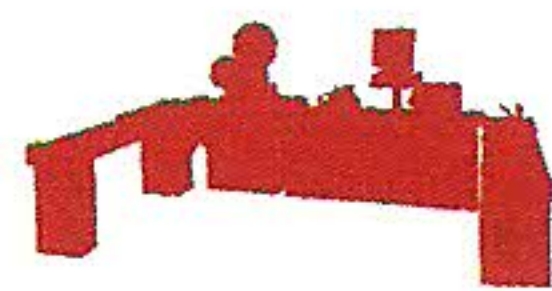

5. A Variety of Applications

The tabletop system is designed to tab a variety of documents and promotional material such as folded self-mailers, letter sized booklets, double postcards, wallet-style booklets, folded newsletters.

PERFECT FOR:

Lettershops, Commercial Printers, Quick Printers, Pro Mailers, Print Shops, Fulfillment Houses, as well as anyone else needing to seal open-ended media at production speeds.
